

Free Crochet Luggage Tag Pattern

By Nicki Byrnes

Materials:

- Worsted weight yarn (any color you like)
- H/5 mm crochet hook
- Scissors
- Yarn needle

Abbreviations:

- ch = chain
- hdc = half double crochet
- st = stitch
- sl st = slip stitch

Notes

- A sturdier yarn like cotton yarn will hold up best.

Nicki Byrnes Crochet

- This can be created with any yarn size. Just match your hook to what is recommended on your yarn label.
- You can modify the length to be shorter or longer. Just add more or less chains to achieve your desired length.

Instructions

Chain 22, depending on how long you want your curly tie to be. (Longer chains = longer curly cues.)

Make 3 hdc in the third ch from hook and in each ch across.

Ch 20 and sl st to your very first st in your foundation row. This creates a loop.

Slip stitch to your first chain to create a loop.

Finish

Fasten off your yarn. Your curl is likely not a perfect spiral, so twist it into the proper shape.

Weave in any loose ends with a yarn needle.

To connect to a bag or luggage, hold the loop around a strap or bar and gently pull the curly cue through the loop.

Options

Slip a small luggage tag or keyring onto the curly cue loop.

Create a 2-color curl by twisting two curls together: Make a chain of 32 stitches and work 3 single crochet in the second chain from hook and each one across. Repeat the process with another color of yarn and then twist the two curls together. You only need to create a loop on one of the curls. When weaving in your ends, connect the two curls so they stay together.
